Summary

Data Science graduate with a strong foundation in machine learning, predictive analytics, and data visualization. Proven leadership as a pharmacy supervisor and data wrangler, with experience guiding teams through complex projects and real-world analytics. Adept at using Python, R, SQL, Pandas, Anaconda, and visualization tools to uncover insights and drive decisions. Passionate about ethical, impact-driven data science across industries.

Skilled in managing setbacks with adaptability and humor, whether troubleshooting technical issues or pivoting project strategies. Known for clear communication, proactive planning, and a collaborative spirit that brings out the best in every team.

Technical Skills

- **Languages & Tools:** Python, R, SQL, Pandas, Anaconda, Jupyter, GitHub
- **Visualization:** Tableau, Power BI, Matplotlib, Seaborn
- **Techniques:** Machine Learning, NLP, Predictive Modeling, Data Wrangling
- **Soft Skills:** Team leadership, project planning, troubleshooting, stakeholder communication

---

Experience Highlights

- Led academic teams as Data Wrangler, Data Scientist, and Visualizer for two major capstone projects (see GitHub)
- Pharmacy supervisor for 3 years, applying data insights to improve medication compliance and reduce no-shows
- Informal clinical analytics experience in pharmacy operations and patient behavior tracking

---

Education Bachelor of Science in Data Science

Bellevue University, Nebraska

Expected Graduation: January 31, 2026

Tagline

"I turn messy data into meaningful stories—collaboratively, creatively, and with purpose."

Fun Fact

I love dogs. 🐶
